COUNTY FAIR ASSURED FOR NEXT YEAR

Meeting of Stockholders Called
For Saturday, October 27,
at Hardinsburg.

Hardinsburg, Ky., Oct. 23.—(Special.)—The stock of the Breckenridge Fair Association has all been subscribed except about \$500 and a meeting of all the stock holders has been called to be held at the court house on Saturday, Oct. 27 next, by the chairman, C. V. Robertson. All the stockholders are earnestly requested to be present at this meeting so that they may sign and acknowledge the articles of incorporation. This is very important and it is hoped that no stockholder will fail to attend. It is the desire of the management that the \$500 of stock which has not been taken be subscribed by persons in various portions of the county; but if this is not done those who have already subscribed will increase their subscriptions to that extent, so the whole of the capital stock will be taken by next Saturday. And the people of the county may confidently count upon having a first class, up-to-date, clean county fair next fall.

STRANGE VARMINT.

A strange looking varmint, resembling much in appearance a wild cat, was killed a few nights ago in the Skillman bottoms by Wm. Suters and Ed. Kinders. The animal was perfectly white

and measured in height two feet and in length three feet. It also measured eight inches between the ears.

The varmint is believed to be the same that has been seen in different parts within the last few weeks.

LEAVES CLOVERPORT.

Harry Hills Accepts Position With
Louisville and Atlantic Railroad at Richmond, Ky.

Mr. Harry Hills, who has been connected with the Louisville, Henderson and St. Louis railway shops, in this city, for the past eight years, in the capacity of foreman, has accepted a position with the Louisville and Atlantic railroad, at Richmond, Ky. The new position is that of master mechanic and comes to Mr. Hills as a deserved recognition of his valuable services with the railroads.

Mr. Hills left yesterday to enter upon his new duties. While the people of Cloverport regret to lose him as a citizen, they trust that he will meet with the success that should be his.

Mrs. Hills will remain in Cloverport for the present.

Balloon Ascension Friday and Saturday.

The Street Fair was more than a success last week, and as the weather was had the first few days, the Street Fair people have agreed to stay Friday and Saturday of this week in order that the people of Cloverport and its surroundings will have an opportunity to see the Balloon ascend and all the shows once more. Come one, come all. Your last chance to see the Robinson amusement Co.

TRAINING SCHOOL FOR CLOVERPORT

Location of Institution Here in
Short While Virtually Assured.

A training school for Cloverport in the near future is an assured fact. The citizens of this city, acting upon a proposition made to them by a representative of the church of United Brethren, have been working to secure the establishment of the school here. That they have been successful in their undertaking is announced by the representative of the church that the subscriptions promised were sufficient to insure the location of the school in Cloverport.

Rev. C. W. Musgrove, Corresponding Secretary of the Conference Board of United Brethren, is the representative here, and it was mainly through his efforts that the school will be located here. It is now thought probable that the new building will be ready for the spring term of school.

CLATER GIVEN TWENTY YEARS

Hardinsburg, Ky., Oct. 23.—(Special.)—Henry Clater, the negro who eloped with Miss Ora Gardner, was tried last week in the circuit court upon the charge of carnally knowing a female under

the age of sixteen years. He entered a plea of guilty to the indictment and the jury fixed his punishment at 20 years in the penitentiary at hard labor, which is the limit fixed by the statute.

When the verdict was returned, there was considerable applause which the court promptly suppressed.

DUNCAN-WHEELER.

Marriage of Well-Known Young Couple Last Evening.

The marriage of Mr. Dan Duncan, of Louisville, to Miss Bernice Wheeler, of Hardin Grove, Ind., was solemnized at the home of the bride's parents yesterday afternoon at 5:30 o'clock. The ceremony was performed by Rev. J. T. Lewis, of Cloverport.

Immediately following the wedding the young couple came to Cloverport to spend a few days at the home of the groom's parents, Mr. and Mrs. H. V. Duncan. They will make their home in Louisville, Mr. Duncan holding a responsible position with the American Grocery Co., of that city.

The groom is universally popular in Cloverport, having formerly lived here, and is a young man of bright business prospects. The bride is a cultured young lady and possesses those traits that make of her a favorite among her acquaintances.

Friends here and elsewhere trust that the future may always be as bright to them as it is now pictured.

Rev. Graves, of Irvington, delivered splendid sermons at the morning and evening services held at the Methodist church Sunday and had large congregations at both meetings.

Avoid alum and alum phosphate baking powders. The label law requires that all the ingredients be named on the labels. Look out for the alum compounds.

NOTE.—Safety lies in buying only Royal Baking Powder, which is a pure, cream of tartar baking powder, and the best that can be made.

A FATAL SHOOTING AT HUDSONVILLE

Owen Willhoit Ends Life of Ora
Carmen With Pistol-Victim
Dies Almost Instantly.

Hardinsburg, Ky., Oct. 23.—(Special.)—Another killing occurred at Hudsonville last Saturday afternoon, Owen Willhoit, of Hardin county, fired three shots from a pistol into the body of Ora Carmen, after a short quarrel. Carmen died within five minutes after being shot. Willhoit came here Sunday afternoon and gave himself up. He was lodged in jail with a charge of murder against him. His examining trial will be held next Monday. Mercer & Mercer are his attorneys and they have entered a plea of not guilty for him, he claiming self-defense. It seems that Willhoit came up to Carmen, who was sitting on the porch of Jno Comer's Store, and asked him if he had called him a certain vile name. Carmen asked him who told him so, and Willhoit told him that he himself said it. Carmen then said that he could consider that he had said it. After a few more words Willhoit walked off. It is said that Carmen followed him with an open knife held in a threatening manner, and that Willhoit turned and shot him. Coroner Lee Bishop was called to Hudsonville and he held an inquest over the remains. The jury returned a verdict in accordance with the facts.

J. D. Brashear, has returned from Louisville.

had eczema. The sores extended so quickly
over the whole body that we were called in

went to another doctor,
but he could not help
him, and in our despair
we went to a third one.
Matters became so bad
that he had to put a
finger into the food
had to be given with a
spoon, for his mouth
was covered with crusts
as thick as a finger, and
whenever he opened the
mouth they began to
bleed and suppurate, as
did also his eyes,
hands, arms, chest, and
back, in short the whole
body was covered over
and over. We had no
rest by day or night.
Whenever he was laid
in his bed, we had to
pin his hands down
with our fingers, or else
scratch his face, and
make an open sore."
We finally thought nothing could help,
and I had made up my mind to send my wife
with the child to Europe, hoping that the sea
air might cure him, otherwise he was to be
put under good medical care there. But,
I'd be blessed, much to our surprise, and
we soon saw a miracle. A friend of ours
spoke about Cuticura, and made a small
order. Cuticura Soap, Ointment, and Resolvent,
and within ten days or two weeks we noticed a
decided improvement. The sores quickly as the
sickness had appeared it also began to disap-
pear, and within ten weeks the child was
absolutely well, and his skin was smooth and

THE STREET FAIR

Will Show In Cloverport Two More Days--Friday and Saturday.

The success met with by the Robinson Amusement Co. on last week has encouraged them to give two more performances on Friday and Saturday of this week. The fair is attracting several good shows. Lenora is giving good crowds, as did the Southern Georgia Minstrels and they delighted the audiences. There are several other features well worth seeing.

UNITED BRETHREN

To Erect Church at Tar Springs.
Thanksgiving Day Services.

The members of the United Brethren faith are completing arrangements for building a church at Tar Springs. The edifice will be 50x32 feet in dimensions.

The greater part of the money necessary for the new building has already been subscribed.

Workers are now busily engaged getting out rock for the foundation. The corner stone will be laid on Thanksgiving, when appropriate services will be held. The church now has fifty-six members and services are being held in a private residence.

\$1000 Reward.

Write to J. M. Quinn, Manager, Commonwealth Life Insurance Company, 308 West Chestnut St., Louisville, Ky., for information about Agency Contracts and the new policy of the Commonwealth.

Build up an income for later years by connecting yourself with this splendid institution. Experience in Life Insurance not necessary. If you are a hustler, honest and sober, you will lose nothing by investigation and it might be a turning point in your business history, which would finally put you on "easy street".

DEATH OF MRS. MARILIA LAMB

Mother of Mr. C. S. Lamb, of This City, Dies at Rome, Ind.

Mrs. Morilla Lamb died at her home at Rome, Ind., on last Thursday, Oct. 18, aged seventy-six years. She was the mother of Messrs. C. S. Lamb, of this city, and H. M. Lamb, of Tolinport, Ind. Several other children survive.

Mrs. Lamb was well known in Breckenridge county, where she had many relatives and friends. She had frequently visited in the county.

Danger From The Plague.

There's grave danger from the plague of Coughs and Colds that are so prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. Geo. Walls, of Forest City, Mo., writes: "It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends it. It prevents Pneumonia, cures LaGrippe, gives wonderful relief in Asthma and Hay Fever, and makes weak lungs strong enough to ward off Consumption, Coughs and Colds. One bottle guaranteed by Severs Drug Co. \$1.00 bottle free."

The Philosopher's Sport.

A balloon trip gives one a sense of utter and complete stillness and also a beautifully serene feeling of aloofness from men and tireless matters, a contempt for the puniness of earth and an unbounded sense of sociability and camaraderie with those with whom one is basketed aloft in those few square feet of wicker. It is a philosopher's joy, ballooning, the sport of the scientific, and the idea that it provides a new thrill or curdles the blood of jaded and sinful bachelors may be good enough for the halfpenny press, but not for the wisecracks of the Aero club--Bystander.

The New Pure Food and Drug Law will mark it on the label of every Cough Cure containing Opium, Chloroform, or any other stupefying or poisonous drug. But it passes Dr. Shoop's Cough Cure as made for 20 years, entirely free. Dr. Shoop all along has bitterly opposed the use of all opiates or narcotics. Dr. Shoop's Cough Cure is absolutely safe even for the youngest babe--and it cures, it does not simply suppress. Get a safe and reliable Cough Cure, by simply insisting on having Dr. Shoop's. Let the law be your protection. We cheerfully recommend and sell it. Severs Drug Co.

This Was In 1824.

English opinion of the United States in 1824, from the standpoint of the fashionable London set, is shown in the extract from the correspondent of John Withers:

"You must have read some time since in the papers of a few young 'fashionables,' Mr. Stanley (Lord Derby's grandson), Messrs. Wortley and Denison, ministerial members, and Le-bouchere, a nephew of Mr. Barin, having sailed for New York with the intention of making a tour of the United States. The scheme was thought very wild and much disapproved of by the west end of the town, and disappointment and disgust were universally predicted."

A Timely Shaker.

Some years ago the Duke of Connaught visited Japan and was taken by Sir Edwin Arnold round the bazaar of Tokyo, where he bought many curious toys and specimens of Japanese art.

In the evening he returned to his family. Sir Edwin had had seen most of the sights, but had not experienced any of the earthquakes which are so common in Japan.

"I suppose you cannot show me one?" said the duke jestingly.

Immediately the house shook, the chandelier swung backward and forward, the china and glass on the table rattled, and the door burst open.

"Why, Sir Edwin, you are a magician!" remarked the duke as the shock, which had happened at so curious a moment, subsided.

A Remarkable Epitaph.

A remarkable epitaph is on a tombstone in Brighton churchyard in England. It reads: "In memory of Phoebe Hessel, who was born at Stegney in the year 1713. She served for many years as a private soldier in the Fifth regiment of foot in different parts of Europe, and in the year 1745 fought under the command of the Duke of Cumberland at the battle of Fontenoy, where she received a bayonet wound in her arm. Her long life, which commenced in the time of Queen Anne, extended to the reign of George IV., by whose munificence she received comfort and support in her latter years. She died at Brighton, where she had long resided, Dec. 12, 1821, aged 108 years."

Atlantic Billows.

The authorities of the United States hydrographic bureau have endeavored to determine the size of the Atlantic waves.

From careful observations they learn that in height the waves usually average about thirty feet, but in rough weather they reach from forty to forty-eight feet. In storms they are often from 500 to 600 feet long and continue to move about ten or twelve seconds, with the longest yet known measured half a mile and did not exhaust itself for twenty-three seconds.

Women as Travelers.

As a matter of genuine fact women, in nine cases out of ten, are better travelers than men are. To begin with, if not so sturdily accurate, although that by no manner of means follows, they are more fluent in foreign languages. They chatter in their say the male things. Ergo, they are the more colloquial, the reader to circumvent the wiles and enticements of the keller or of garcon.—London Gentlewoman.

Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as three different ailments, but they are all symptoms of one certain disease—Nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of that very popular Stomach Restorative—Dr. Shoop's Restorative. Going direct to the stomach nerve, alone brought that nerve and favor to Dr. Shoop and his Restorative. One of the most famous of American shipping lines in the palmy days of our marine was the Cope line, which ran between Philadelphia and Liverpool.

Says the author of "Memoirs of Charles H. Cramp." By this line John Randolph of Roanoke determined to go to Russia when he had been appointed minister to that country by President Jackson.

Entering the office of the company in Philadelphia, he said to a clerk in his usual grandiloquent manner:

"Sir, I wish to see Thomas P. Cope."

He was shown to Mr. Cope's office. "I am John Randolph of Roanoke," he said. "I wish to take passage to Liverpool in one of your ships."

If he expected to be tendered a pass he was grievously disappointed.

"I am Thomas Cope," replied the head of the line. "If thee goes aboard the ship and selects thy stateroom and will pay \$150 thee may go."

HONGKONG HARBOR

Shorn by Typhoon Which Wrought Havoc to Shipping.

Hongkong, Sept. 19.—So far as known no Americans lost their lives in the typhoon which churned up the harbor here and did such great damage to shipping. The harbor is strewn with wreckage and the streets are littered with debris. It is estimated that 100 lives were lost.

An unknown steamer collided with the British steamer Strathmore, seriously damaging the latter. The British steamship Loong Sang collided with the British steamer Chip Shing, with slight damage. The river boat Fat-shing fouled the French mail boat Polynesia. The British steamer Montclair, the German steamer Signal, the German steamer Emma Lay, the British steamer Chong Sha, the German steamer Sexta, the Korean ferryboat and a water boat were driven ashore. The United States vessel Sorogona and German steamer Zohanne are awash. A Japanese steamer is stranded on Keleita Island.

One French torpedo-boat destroyer is ashore, its crew dragged up the beach. The British steamer Empress of Japan was saved by the dock company. The French steamer S. M. Hitchcock was driven high and dry on shore. The British river steamer Kwong Chai, Cheung and Sze Lee, were damaged. The French steamer Charles Hardouin was damaged. The Chinese steamer Wing Chai was beached.

A tramp vessel collided with the French torpedo-boat destroyer Fronda and it is reported 20 Frenchmen were killed. The French torpedo-boat destroyer Fronda is ashore, the steamer Apenrade is stranded on Stone Cutters Island and the British steamer Radnor Shire is damaged.

The military quarters and temporary buildings were demolished and the men are being quartered in the casemates of the fort.

EASTERN RAILWAY

Proposes to Reduce Passenger Fare to Two-Cent Rate.

Washington, Sept. 19.—The Boston & Albany Railroad company in a letter to the interstate commerce commission requests permission to change its passenger rates to all points east and north of the line drawn from Washington, D. C., to Buffalo, Indianapolis, and intermediate tariff to all points west and south of such line from 24 cents per mile to 2 cents. The letter states that by the general reduction a great many of the rates to points in Ontario, Michigan, Wisconsin, Pennsylvania, Ohio, Indiana and Illinois may be changed. The company states that it received notification that the Pennsylvania, Erie, Lackawanna, Lehigh Valley and Reading roads would reduce one way local fares to 24 cents per mile, and therefore asks that it be permitted to have until Oct. 25 to give revised tariff effective Nov. 1. No action was taken on the request.

Churchill Defeated.

Concord, N. H., Sept. 19.—Charles M. Floyd of Manchester was nominated for governor at the close of the hardest contest ever waged in a Republican convention in New Hampshire. Nine ballots were necessary, and three of these ballots were made void by more votes being cast than there were delegates entitled to seats. Winston Churchill, the novelist, and leader of the recently organized Lincoln Republican club of New Hampshire, was Floyd's competitor in the final vote. The result of the ninth and final ballot was Floyd, 405; Churchill, 335; Charles H. Greenleaf of Franconia, 55; Stephen H. Gale of Exeter, 12.

Made Up Shortage.

Akron, O., Sept. 19.—Fred E. Smith, former county treasurer, paid up the shortage incurred during his administration. He was given a receipt for his full indebtedness to the county by his successor, Paymaster.

It is in local bank by Smith as county treasurer were made recently, and these, with his being apportioned \$95,530 from the county treasury as city and school board treasurer reduced the deficit to \$33,330.40, which was cashed off. The total deficit incurred from Columbus was \$432,342.34. This included all loans, whether in the judgment of the examiners they were good or not. Nearly all loans made by Smith are paid.

Campaign For Two-Cent Fare.

Harrisburg, Pa., Sept. 17.—S. M. Williams, secretary of the Pennsylvania state board of trade, made public copies of letters received from the governors of several states on the movement to obtain uniform legislation throughout the United States for a 2-cent maximum fare on steam railroads. Mr. Williams recently communicated with the governors of all the states with a view of obtaining their sentiments on this question. A number of the governors are personally favorable to 2-cent fare and in a few instances tell of movements in their states to obtain such legislation by the legislature.

Declined Nomination.

London, O., Sept. 20.—Thomas H. Davidson, who was nominated for congressman by the Republican Democratic county convention, declined to allow his name to go on the ticket. The committee appointed to fill vacancies in the House of Representatives of London to fill out the ticket.

Farmers Cremated.

Lancaster, Ky., Sept. 13.—Nathan Taylor and Bud Kaiser, farmers of Kentucky, this county, were burned to death in a fire which destroyed their home and barn, in which they were sleeping. The cause of the fire is unknown. Taylor left a family and Kaiser was a single man.

FOUND RELIEF BY TAKING PERU-NA

MRS. ANNA MUNDEN

There can be no doubt about it that the tendency to resort to surgical operations has been too great in the past and that this harmful tendency is growing less every day.

Experience has demonstrated that many ailments which seemed to require surgical operations in the past are now being cured by the use of harmless remedies. Peru-na has done as much as any other remedy to establish this very important fact.

Thousands of people have been condemned to undergo surgical operations. Their physicians have told them that they must either submit to such operations or lose their lives.

After this they have resorted to Peru-na and found relief.

Other good remedies have accomplished the same result, but it is safe to assume that no other remedy has equalled Peru-na in its beneficial work.

Many of the alleged incurable derangements of the pelvis are dependent upon catarrh.

There is no cure for these except the removal of the catarrh.

Peru-na seemingly works miracles in some of these cases. The explanation, however, is very simple. Peru-na removes the catarrh and Nature does the rest.

BIG SPRING.

H. H. Kemper, of Irvington, was here Sunday.

Mac Moorman, of Texas, is here visiting his brother, Achilles Moorman.

Frank Bush and Cecil Clarkson have gone to Spencerport, N. Y., to work with John Fabbot, a former Meade county boy, who is in the commission business.

Miss Zelma Strother returned home Sunday from a visit to Louisville.

Rev. McConnell has moved his family here from Beaver Dam. He filled the pulpit the second Sunday, and all were delighted with him.

Mrs. R. H. Craycroft has returned home after a month's visit to her brother, at Dallas, Tex.

Charles Morris came down from Louisville Friday and remained over until Sunday.

MOTHERS READ THIS

DAUGHTER OF C. W. STUMP

Mrs. C. W. Stump of Canton, Ohio, writes: "I wish I could induce every mother who has a weak, sickly child to try that delicious cod liver oil preparation, Vinol. Our little daughter was pale, thin and sickly."

"We tried various medicines, but without any benefit whatever, and she could not take cod liver oil or emulsions, as they nauseated her and upset her stomach."

"Learning that Vinol contains all the medicinal and strength-giving properties of cod liver oil, but without the disagreeable oil, we decided to try it, and the results were marvelous, so quickly was she restored to health and strength."

"We have never sold a medicine equal to Vinol for delicate children."

Suffered Thirteen Years With Pelvic Troubles. Unable to Find Relief.

AN OPERATION ADVOCATED.

Pe-ru-na, Taken as a Last Resort, Brings Health and Strength.

ANNA MUNDEN, Brinkley, Ark., writes:

"I suffered with female troubles for thirteen years, and tried the best doctors in Louisville, Ky., without relief."

"I spent thousands of dollars at the Springs."

"The doctors desired that I have an operation performed to remove my ovaries, which I would not consent to."

"I saw an advertisement of your Peru-na and bought one bottle and before I had taken it all I could get out of bed and walk about."

"After taking three bottles I was as well and hearty as ever."

"I gained in flesh. From 118 I increased to 186 pounds."

"If it had not been for your great and wonderful medicine, I would now be in my grave."

"I would advise all women sufferers to try it."

"I would not be without it for the world."

A WOMAN'S LETTER TO WOMEN.

Mrs. Caroline Kramer, Fort Collins, Colo., writes:

"The majority of women who are suffering from disordered periods and other troubles, have such strong faith in doctors that they allow them to experiment on them for kidney, liver, or stomach troubles, until they become discouraged and their money is gone."

"This was my unfortunate experience for nearly two years, when my attention was called to Peru-na."

"I hardly dared believe that at last I had found the right medicine, but as I kept on using it and was finally cured I could only thank God and take courage."

"I have had most satisfying results from the use of your medicine and have advised dozens of women, who were suffering with woman's ills to use Peru-na and let the doctors alone, and those who have followed my advice are better to-day and many are fully restored to health."

How Trees Are Balanced.

A tree grows in perfect balance on every side. When a large branch shoots out on one side, one of equal size or two smaller appear on the other. The roots are in balance, and in answer, a large branch on one side being matched by a large root. The center of gravity is thus always perfectly maintained.

Plague of Inventions.

Human ingenuity is a plague to modern life, and there is some excuse for the view of a great man who regarded the inventor of railways as a curse to his race. The truth probably is that no invention is at first perfect, and we have to suffer from its transitory imperfections—London Lancet.

Many requests from Catarrh sufferers who use automaters have resulted in Liquid Cream Balm, a new and convenient form of Ely's Cream Balm, the only remedy for Catarrh which can always be depended on. In power to allay inflammation, to cleanse the clogged air-passages, to promote free, natural breathing, the two forms of Cream Balm are alike. Liquid Cream Balm is sold by all druggists for 75 cents, including shipping (tube, mailed by Ely Bros, 56 Warren Street, New York).

PROTECTION FOR KENTUCKY.

Kentucky is, in the main, an agricultural State. The policy of protection as applied to Kentucky is, therefore, of great interest to every business in the commonwealth. All classes in America are interdependent. The relation between the farmer and the artisan is particularly close, when the city wage earner receives due compensation for his work he will buy more and better food for his family. The farmer benefits. The farmer's benefit means an added value to farm property.

The present selling values of medium quality farm lands in every State has been ascertained by the Department of Agriculture through the agency of nearly 50,000 letters from prominent and reliable citizens located from the far East to the far West, and from the far North to the far South. The prices reported have been averaged for each class of farms, with the result that the department is able to announce the following increases in total farm real estate values in 1905, as compared with the values reported in the census of 1900:

Class of farms.	Increased Real Estate Value in Five Years.
Live stock	\$2,263,000,000
Hay and grain	1,983,000,000
General	768,000,000
Cotton	460,000,000
Dairy	369,000,000
Vegetable	113,000,000
Fruit	94,000,000
Tobacco	57,000,000
Sugar	26,000,000
Rice	3,000,000

Total increase \$6,136,000,000

This enormous increase of \$6,136,000,000 in the total value of the real estate of our farms in only five years, is equal to an average annual increase of \$1,227,000,000 for each of the five years, or \$102,250,000 for each and every month. In other words, every time the sun went down during that five years the farmers of the United States were worth \$3,360,000 more in their real estate alone than they were at "sun up" on each of the 1,825 days, Sundays and holidays included.

In addition, Uncle Sam's farmers are better off to the extent of the face of the mortgages paid off during the five years; or, for that matter, since the present protective tariff was adopted on July 27, 1897, for the money still in the bank of the family treasure chest; for the new furniture and the pianos (farmers did not buy many pianos or much furniture in low-tariff days) which they paid for and put in their homes; for the farm machinery, farm implements, and additional live stock, blooded and otherwise, which they have put on their farms; for the orange, lemon and other fruit trees which they have been able to buy and plant; for the investments they have been able to make in financial, industrial and commercial companies; for the better clothes for wife, children and self, which they have been able to buy and still own; for the trips abroad which they or their wives, or their sons and daughters, or all the family, have been able to make; for the higher education, college or other, which they have been able to give their sons and daughters; for the years added to their own lives by the removal of care and financial worry; for the power they are in their communities compared with the weakness of their position among their fellows in low-tariff days; for the broad hold they have on life, and the variety and wideness of their environments, instead of being "cribbed, cabined and confined," for the better carriages (or automobiles) in which they can ride to county fair or to market; for the telephones in their homes and the rural free delivery at their doors; for the market which seeks them instead of their having to seek the market; for the better financial support they are able to give to their churches, their lodges, their improvement societies and women's clubs. In short, they are now—those hard working, honest, intelligent farmers of ours and their families—gladdened with the joys of life instead of (figuratively speaking) starving on its bare necessities.

The Kentucky farmer was never as well off. He is today in a position not only to support his family in affluence, but to give his children the best schooling available. Protection is enlightening Kentucky. It is opening doors of opportunity for her children otherwise closed. It is the policy for Kentucky, and no mistake.

Lucky Horseshoes.

There is a right way and a wrong in the picking up of a horseshoe. I was walking with a country bred boy along a Somerset lane and saw one lying in the crumbling summer rut. "There is a horseshoe," said I. The lad sprang forward, but stopped suddenly before his fingers touched the iron. "But I won't pick it up," said he, "or I shall spoil your luck." It may perhaps have been only a point of etiquette, but he assured me that a horseshoe of my finding could bring luck neither to him nor to me if he touched it before me.—London Standard.

PUBLIC OPINION

Responsible For Rebate Conviction Claims the Defense.

New York, Oct. 18.—In the case against the New York Central Railroad and its general traffic manager, F. L. Pomeroy, for granting rebates, the jury returned a verdict of guilty.

The charge against the New York Central and Pomeroy was based on indictments found by the United States grand jury after many months of investigation. It was alleged that the defendants entered into an agreement with the American Sugar Refining company whereby Edgar & Son of Detroit were favored by a reduction of 5 cents per 100 on sugar shipments from New York to Detroit from the regular traffic rates.

According to the provisions of the Elkins law, under which convictions were secured, the maximum penalty is a fine of \$20,000. As both the Central and Pomeroy are convicted by the decision of the jury on all of the six counts charged in the indictment, the total fine for each can be made as high as \$120,000, which would be the maximum under the law.

In discussing the jury's verdict Austin G. Fox, counsel for the defendants, placed the responsibility for the conviction of his clients on public opinion.
